PROFESSIONAL EXPERIENCE

AI Automation Engineer — Big Impact Products

Sep 2025 – Apr 2026

Bangalore, India (Remote) • Internship • Completed

- Built an LLM-powered customer support chatbot using OpenAI API and advanced Prompt Engineering to automate appointment scheduling and query resolution, reducing manual workload by 60% and increasing user engagement by 35%.
- Designed and deployed a real estate Conversational AI chatbot using Voiceflow, Make.com, and Twilio to automate property inquiry workflows, capturing lead details and routing qualified prospects to agents via call or SMS, reducing response time by 40%.
- Engineered scalable n8n automation workflows with REST API integrations across multiple third-party SaaS platforms, eliminating 50% of manual data processing and boosting operational throughput across 3 cross-functional teams.

PROJECTS

TravelOps AI — AI-Powered Travel Planning Platform ([Link](#))

Jun 2026 – Jul 2026

- Built an end-to-end AI-powered travel planning platform using n8n, FastAPI, Supabase, and Lovable, generating complete travel itineraries, hotel recommendations, budget estimates, and destination insights.
- Designed a multi-agent workflow architecture with specialized AI agents for weather analysis, attractions, hotels, budgeting, flights, and itinerary generation, integrating OpenStreetMap, Weather, and Country APIs for dynamic recommendations.
- Implemented automated PDF report generation and cloud storage, enabling users to view and download professional travel reports directly from the application.

Retail Store CRM Platform — Nutsome Bites ([Link](#))

Feb 2026 – Apr 2026

- Launched a full-stack CRM platform using OpenAI API and n8n to manage customer interactions, targeted WhatsApp campaigns, and real-time engagement tracking for retail businesses.
- Deployed AI Agent-powered customer scoring using purchase history, spending patterns, and feedback data to automate win-back campaigns and milestone-based loyalty messaging.
- Delivered approval-based messaging workflows, WhatsApp conversation history tracking, and a real-time analytics dashboard to streamline store-customer communication and support data-driven decision-making.
